THE CHANGE OF TIME.

HOW THE CLOCKS WILL BE CHANGED

The Different Railroads and the Difference the Transaction Will Make in Their Respective Times—A Table to Keep.

CHICAGO, Nov. 16.—Some idea of the changes which will be made in the clocks and watches along the line of the different railroads of the country by the adoption of the four standards of time on the 18th can be obtained from a partial list of roads given below. This list is officially announced by W. F. Allen, the secretary of the conventions of railroad managers in which the changes were decided on. That many schedules will have to be changed is due to the fact that many connecting roads now using different standards will, after the 18th, use the same. The following is the list; the letter f denoting that the clock is to be set ahead, and the letter s that it is to be set back:

Atchison, Topeka and Santa Fe, east of Dodge City, clocks only, 9 minutes, f.
Atchison, Topeka and Santa Fe, west of Dodge City, clocks and schedules, 51 minutes, s.
Baltimore and Ohio (west) both clocks and schedules, 28 minutes, s.
Boston, Hoosac Tunnel and Western, both clocks and schedules 4 minutes, s.
Boston and Albany, clocks only, 10 minutes, s.
Canadian Pacific, (Eastern division,) clocks only, 6 minutes, s.
Central Vermont, both clocks and schedules, 12 minutes, s.
Chesapeake and Ohio, both clocks and schedules, 9 minutes, f.
Chicago and Alton, clocks only, 9 minutes, s.
Chicago and Grand Trunk, both clocks and schedules, 9 minutes, s.
Cleveland, Columbus, Cincinnati and Indianapolis, both clocks and schedules, 28 minutes, s.
Delaware and Hudson Canal Company, clocks only, 4 minutes, s.
Delaware, Lackawana and Western, both clocks and schedules, 4 minutes, s.
Fort Wayne, Cincinnati and Louisville, both clocks and schedules, 35 minutes, s.
Freehold and New York, both clocks and schedules 4 minutes, s.
Hartford and Connecticut Western, clocks only, 4 minutes, s.
Lake Shore and Michigan Southern, both clocks and schedule, 29 minutes, s.
Lehigh Valley, clocks only, 4 minutes, f.
Louisville and Nashville, clocks only, 1? minutes, s.
Missouri Pacific, clocks, schedules at St. Louis only, 8 minutes, s.
New York, Lake Erie and Western, clocks only, 4 minutes, s.
New York Central and Hudson River, clocks only, 4 minutes, s.
New York City and Northern, clocks only, 4 minutes, s.
New York and New England (east of Connecticut) both clocks and schedules, 14 minutes, s.
New York and New England (in Connecticut), both clocks and schedules, 4 minutes, s.
Pennsylvania, New York division, both clocks and schedules 1 minute, s.
Pennsylvania, all divisions except New York, clocks only, 1 minute, s.
Pittsburg, Cincinnati and St. Louis, (Pan Handle and Fleming, Port Wayne and Chicago, 28 minutes, s.
Philadelphia and Reading, both clocks and schedules, 1 minute, f.
Rome, Watertown and Ogdensburg, clocks only, 4 minutes, s.
The four standards of time will be known as the "Eastern Standard Time," "Central Standard Time," "Mountain Standard Time," and "Pacific Standard Time." It was at first thought necessary to use the word "Railway" in the names of the different standards, but the word was left out because it was believed that cities and villages would soon adopt the railway time as to render it unnecessary. Western New York leads in the movement, the action of the New York Central railroad having time cards at points on the Buffalo line so stacked changes will probably give the time of the Observatory time according to both standards, to prevent mistakes.

THE WINTRY WAVE.

Six Sailors Drowned While Attempting to Reach Shore.

ST. PAUL, Minn., Nov. 16.—Minerva Dak., thermometer registering 30 degrees below zero. All trains are delayed on account of the wind. Navigation has been practically suspended here for several days. The storm lasted last night.

CHATTANOOGA, Tenn., Nov. 16.—Last night was the coldest November night known here in many years. The temperature fell to twenty degrees.

FORT RENAN, Col., Nov. 16.—Captain **Woodward, of the Life Saving Station, proceeded to the wreck at daylight this** morning, of the ill-fated schooner reported ashore at Longpoint yesterday.

The vessel is completely covered with ice. Her name, as near as can be made out, is E. Fitzgerald, of Buffalo. It is supposed to be loaded with wheat.

The sea is still so high that it is impossible for a small boat to live near the wreck. It is now said that her crew consisted of six men instead of eight, as reported yesterday. All were drowned endeavoring to reach the shore in a yawl. The vessel will be a total wreck. None of the bodies came ashore.

PENSACOLA, Fla., Nov. 16.—The first ice of the season last night.

UNFOUNDED RUMOR.

"The Week," of Cincinnati, Has Not and Will Not Change Hands.

CINCINNATI, Nov. 16.—The report that "The Week," Cincinnati's new illustrated paper, has been sold to a large Eastern publishing concern proves wholly without foundation. The success of "The Week" has attracted much attention, but its proprietor, Mr. Procter, has not sold it and has no notion of doing so. He has lately made extensive improvements and enlarged his plans, growing out of the unexpectedly large demand for the publication. He will retain possession and management of the paper and has arranged to secure the best literary and artistic talent in the country.

ON THE SCAFFOLD.

A Chilly Execution at Oakland, Md.—Perry Joier Hanged.

OAKLAND, Md., Nov. 16.—John Smith, the negro who murdered Josiah Harding on the night of May 13 last, was hanged here to-day. The murderer manifested stolid indifference to the preparations that were being made for his execution. The sheriff built a strong box of pine twenty feet high in the jail yard, so as to prevent any one except those who were inside the enclosure by special permission from witnessing the hanging. The people were so indignant over this that they threatened to tear the fence down. The Garrett Guards were ordered out to prevent any interference with the arrangements. A severe snow storm prevailed from last night, the scaffold and enclosure were white with snow this morning.

PERRY JETER.

UNION, S. C., Nov. 16.—Perry Joier, colored was hanged here now to-day for arson. His crime consisted in setting fire to a dwelling house in the county and making a desperate attempt to murder its inmates. He was convicted and sentenced to be hanged August 3, but an appeal was granted and his sentence confirmed.

WATER FAMINE.

Threatened With Serious Trouble.

WATERBURY, Conn., Nov. 16.—A water famine has threatened Waterbury in the face during the past few weeks, owing to the low condition of the city reservoir which now contains but a few feet of water. The supply of the latter was cut off a day or two ago, since which time it has been possible to maintain the average depth of the reservoir at one point, but should a fire or a break in the main occur, the supply would soon be consumed. To meet the coming exigencies, workmen have been employed for the past few days in constructing a small reservoir on what is known as Mad river, into which a part of the stream can be turned while the water pipes are being laid to connect it with the main pipe which brings the water to the city from East Mountain. By this arrangement a stream of pure water will be forced into the main during the day or when the drain is heaviest. There is also a scheme on foot to permanently increase the water service, and engineers have been making researches about the country for the purpose of locating a new reservoir.

Special Weather Bulletin.

WASHINGTON, Nov. 16.—Fair weather will prevail except in New England and the Lake Region, where light snows are reported. Brisk high north to west winds prevail on the Atlantic Coast, and in the Lower Lake Region northerly winds continue. In the Gulf States, Tennessee and Ohio valleys, south to west winds prevail, and northwest on the Upper Lake Region. The temperature has fallen about ten degrees in the Southern States and Ohio Valley, and about five degrees in the Middle States and Lake Regions. It has risen slightly in New England and risen from ten to twenty degrees in the northwest. Freezing weather is reported as far South as Shreveport, Vicksburg and Montgomery. The indications are that fair weather will prevail in the Middle States, the Ohio Valley and the Gulf State on Saturday with slowly rising temperature. Warmer fair weather is indicated for Missouri, Iowa and the southern portions of the Upper Lake Region, Kansas, and Nebraska on Saturday. Warmer weather is also indicated for the northwest Minnesota and the northern portions of the Lake Region on Saturday, with rain on the South Atlantic States Saturday morning as far South as extreme northern portions of Florida.

Mr. Cox Speaks Out in Meeting.

WASHINGTON, D. C., Nov. 16.—Mr. Cox, seated in his headquarters at Willard's Hotel Thursday morning, in consultation with two of his strong supporters, General Slocum, of New York, and Hill, of Ohio, said to a gentleman who inquired as to Speakership prospects: "They speak of compromising votes. What am I to compromise? For? For making a quarter of a century fight for Democratic thought? For making a past six weeks the campaign in Ohio, Maryland, New Jersey and New York? For making a straight Democratic record in war and peace on all questions, without going to caucus? If this is to be worth only compliment, it is not worth having. The truth is that the calculations which the Pennsylvanians and the Kentuckians have made so fluently, by leaving me out, will be found exclusive as to the contest. It is a sort of a patronage on the part of those near Congressmen to their elders in service."

The Outrageous Attempt to Blackmail Sharon.

SAN FRANCISCO, Nov. 16.—Since the publication of the charge that the Sharon-Hill contract of marriage between ex-Senator Sharon and Adelina Hill, opinion is strongly divided as to whether the document indicates. It is written on small sheets of note paper on both sides, and the inference is drawn that Sharon gave his autograph on blank paper which was used to write the contract upon.

Sunset Cox Is Not Joking.

BALTIMORE, Md., Nov. 16.—The Hon. S. S. Cox, in an interview with the Washington correspondent of the Herald, says that there is no joke in his candidacy for the Speakership. It is the purpose of the friends of the Democratic party, he says, and thinks that the present situation does not serve friendly and serious consideration, to present a name that will have from sixty to sixty-five votes on the first ballot.

Fire Near a Hospital.

NEW YORK, Nov. 16.—Shortly after 4 o'clock this morning a fire broke out in the four story building 150 Chambers street, owned and occupied by J. A. Stillwell & Knickerbocker Mills. NIHILIST TRAGEDIES.

MORE HANGING AND BOLD THREATS.

Threatening War Upon Women—Hanging of an Alleged Famous Conspirator—Threats of Nihilist Revenge Uttered.

LONDON, Nov. 16.—Nihilism in Russia has resulted in two more tragedies, both culminating at St. Petersburg yesterday, and each having a woman for its victim. Both were hanged, one by the official executioner, the other by her own hand, evidently in full view of the fact that death awaited her in any case. The official victim was Sofia Wasilewpensky, a young lady student, a member of the society of the Red Cross, one of the women arrested at Warsaw in the Imperial Marie Institute at Warsaw was discovered to have fallen into nihilistic control, and a nest of a number of revolutionists. It is said that on her trial, confronted with great dignity and calmness, it was shown that owing to influences related at court, through the instrumentality under the direct patronage of the Empress, the prisoner had been made the victim of intrigues with police officials, have been given their ultimate object the disorganization of order. These statements in connection with the subsequents of the recent trial of Rev Czar Socialists, which resulted in the deportation of sixty-three of them to Siberia, have caused a profound sensation in the Russian Capital. The execution of Miss Wasilewpensky took place early yesterday morning. In the presence only of official spectators. She is said to have met her death bravely. The suicide was a woman named Ostinsky, who had, by her volunteered diagnosis and reckless confession to the principles of Nihilism, made herself a leader among the terrorists of little Russia, and other southern provinces of the Empire. She was recently arrested at Kharkov, the Capitol of the province of the same name, and sent to St. Petersburg for trial. Yesterday morning she was found dead in her cell, having hanged herself during the night, with a towel, to the bars of a window just under the low ceiling of the room.

ST. PETERSBURG, Nov. 16.—The Will of the People (Nihilist) states that the sentence of death passed by the Nihilist Central Committee on an informer was carried out. It says their party has lost many valuable members recently, but the gaps are being rapidly filled. More blood will flow, the responsibility for which will fall not only upon a senseless government, but upon those who, knowing the pressing needs of the country, sit still and do nothing. The paper contains two letters from convicts in Siberia, which give horrible detailed accounts of prisoners there.

SINGULAR SHOOTING AFFRAY.

Sad Consequences of a Hoodlism Spree at Erie.

ERIE, Pa., Nov. 16.—On the Fourth of July last, Albert Kuhn, his brother Frank and four other young men who had been drinking, boarded a street car and amused themselves by emptying their pistols at the horses as they passed. One ball struck Miss Rosa Steiner, who had just emerged from her residence, piercing her heart and killing her instantly. Albert Kuhn was arrested for the murder and Frank, who was heard to bemoan the disgrace that would attach to their family, hanged himself a few hours later. During the time which elapsed Thursday, an effort was made to show that it was Frank who did the shooting and that he committed suicide from remorse. The evidence against Albert was, however, too conclusive and the jury after deliberating all night, brought in a verdict of manslaughter. The sentence was deferred.

THE STOCK MEN.

They Take Action to Prevent the Spread of Disease in Cattle.

CHICAGO, Nov. 16.—The National Convention of stock men, called to take action to stamp out contagious diseases among live stock, reassembled on Friday. Senator Williams, of Kentucky, presiding. 36 delegates being present. The committee appointed to outline a plan of action, submitted a series of resolutions, which, after being variously amended, read as follows:

"Whereas, The existence of contagious pleuro-pneumonia in certain portions of a few States on the Atlantic seaboard, introduced from time to time by the importation of live stock from foreign countries, constantly threatens the spread of contagion to Southern and Western States and Territories; that the disease is of such character that State legislation can only give partial relief; that prompt and appropriate legislation on the part of Congress to eradicate the disease in the infected districts is imperatively demanded; that should the great ranges of the West become infected with the disease it would be impossible to stamp out the plague except by total destruction of herds at a cost of hundreds of millions of dollars; therefore,

"Resolved, That we urge upon the proper authorities the imperative necessity of thorough inspection of all live stock and meat products shipped to foreign countries."

The Convention also endorsed the action of the Secretary of the Treasury in enforcing quarantine against all imported cattle, and decided to petition Congress to confer authority on the Treasury Department by which quarantine could be extended so as to cover sheep, swine and goats. The Convention adjourned sine die.

A Horse Race Law Suit.

BRIDGEPORT, Nov. 16.—Michael Coyne brought action to-day in the Kings County Supreme Court to recover $50,000 damages against S. L. Monroe, for personal injuries. It appears from evidence that Mr. Monroe was owner of a valuable trotter known as "J. D.," which he put in charge of John Driscoll. Driscoll was to train the animal and bring out his best speed. While driving down the road on the 25th of June last he met the plaintiff, Coyne, who was also driving a fine trotter, and he pulled up for a brush. Driscoll went by the plaintiff two-and-then fell behind. Then he came up again, and, as Driscoll testified, were going neck and neck when Coyne's horse shied, and there was a collision. Coyne had his legs crushed. The jury returned a verdict for defendant, as they concluded that he was driving at was Coyne's fault.

Muldoon, the absconding railway contractor, who recently failed with liabilities of $1,000,000, led to the large being made implicating Muldoon in the issue of quantities of forged stock of the Charlewood Railway.

NEW YORK, Nov. 16.—The Mail and Express, and Post refused the composition forty cents per thousand ems instead of thirty-five, as at present, and the Union men went out.
